

Solutions For a Brighter Tomorrow

Our ultimate source of energy
–the sun

.....

Purposes of the Society

To pursue and promote solutions for meeting Vancouver Island's energy needs in socially and environmentally responsible ways so as to facilitate economic and social development.

To support and promote energy conservation efforts on Vancouver Island.

Do you wish to
be a part of the
solution?

What you can be a part of...

- Display tables at public events educating the public about energy issues
- Be involved in shaping energy policies on Vancouver Island
- Promote solutions to transportation issues on the Island(s)
- Work with like-minded organizations, governments, and companies for needed changes in energy
- Have fun with people who share your passion for these issues!
- Learn more about the realistic solutions yourself!

Wind energy is now cheaper than natural gas generated electricity

Benefits to Membership

- Be a part of the solution to Vancouver Island's energy needs
- Support concrete and practical methods of getting the needed resources (retrofits, new energy, conservation) to homeowners, businesses, and others
- Increase the available pool of know-how, from individuals to skilled trades people to large energy companies
- Help to keep the lights on!
- Be a part of the growing population that believes a vibrant economy and a healthy environment are mutually possible and desirable
- To keep energy prices reasonable, thus maintaining a competitive advantage for companies located on the Island(s), as well as livable for its residents
- Promote the use of passive energy
- Create realistic and cost-effective ways to move people and goods
- Network with others in creating meaningful solutions to our energy needs
